**Partners in Health ... A New Way of
Thinking About Health Care**

We centered our thinking about local delivery of services, local hospitals and Doctors you know, and local service in the community, and coupled that with 21st Century tools and resources for physicians and hospitals. Add in a non-profit organization model that puts you at the center of the equation, and we think we've got a winning recipe for health care service delivery.

We hope you will give consideration to Partners in Health. You and your family deserve the best.
